It’s not about believing. It’s about doing.
Message from Dr. Darryl L. Taylor  
Director, Cranbrook Schools Horizons-Upward Bound

Each year, it is challenging to create a theme that is motivating, inspirational and memorable. After watching the Jackie Robinson-inspired film entitled 42, I selected as the 2013-2014 theme: “It’s not about believing. It’s about doing.” The movie was both inspirational and motivational because it captured the strong character that the Brooklyn Dodgers and Jackie Robinson displayed in overcoming the segregation and prejudice associated with major league baseball. In one scene, Dodgers owner Branch Rickey asked, “Jackie, do you believe if the Dodgers had more Negroes we could win the World Series?” Jackie replied in a very serious and monotone voice, “I don’t think it matters what I believe; only what I do.”

Those words echoed in my head for the remainder of the day. I could not escape the feeling that this is an epiphany of what all federally funded TRIO programs are facing now and in the years ahead. The challenges that Jackie Robinson faced were greater, more dangerous and he was alone. He knew that the world was waiting for him to prove he belonged in major league baseball. I chose his words to create a battle cry for not only the 2013-2014 HUB year (June-May) but to serve as a constant reminder as we fight for our future that we are at a crossroad with TRIO programs. We can no longer believe we have a right to exist; we must justify our existence because of what we do. Our students no longer can just believe they can be academically proficient, they must demonstrate their proficiency in everything they do. HUB provides our students with the tools, skills, and support to achieve what some believe they can’t - the impossible, the unimaginable, a brighter future.

The Horizons-Upward Bound program is multi-faceted, stressing academic enrichment in preparation for post-secondary education. One of our essential goals is promoting reading proficiency above grade level. Our students receive one-on-one reading tutorial help from trained reading specialists to achieve this objective. Utilizing the interview process, and counselor recommendations, students are selected to participate in the program. A Personal Education plan is created based on the participant’s learning style, reading proficiency, family and fitness assessments combined with student profiles, grades and scores on standardized tests. All HUB students participate in writing workshops during the summer phase to encourage expression through prose and poetry. Intensive year round standardized test preparation is given to all participants to enhance performance and achieve proficiency on all standardized tests.

The HUB Parents’ Association has become an active and committed group. Volunteer parents assisted with golf outing, alumni basketball game and the HUB Garden. Over 100 parents attended meetings with the director and faculty to support the program’s goals and objectives.

It is my hope that all of our students will understand the meaning of Jackie Robinson’s words and realize that we are at a critical point in our history. As we approach HUB’s 50th anniversary, we can no longer state what we believe without showing what we have done. For us the time is now. “It’s not about believing… It’s about doing.”
The mission of Horizons-Upward Bound is to prepare students with limited opportunity from the Detroit metropolitan area to enter and succeed in post-secondary education.

The primary goals of Horizons-Upward Bound are to:

- Provide a comprehensive summer and academic year program that prepares low-income, potential first-generation college students in academic skills that will allow them to succeed in secondary and post-secondary education.
- Explain, demonstrate and teach our students their responsibility as citizens, the importance of character and give them a sense of empowerment that they are connected to a higher community.
- Ensure the long-term financial health and stability of the program and secure the funds necessary to support the priorities and goals of the program.

History
Horizons-Upward Bound is modeled after A Better Chance, a program founded on the premise that low-income students can successfully compete with students from higher-income households if provided with the same preparation and opportunities. With the guidance of faculty from Cranbrook School, the program began in 1965 funded by a grant from the Ford Foundation under the “Horizons” banner. The U.S. Department of Education started a nationwide “Upward Bound” program one year later as part of President Johnson’s Great Society initiatives. When it became apparent that the local “Horizons” and the nationwide “Upward Bound” programs had essentially the same goals, Cranbrook applied for and received a federal Upward Bound grant that resulted in “Horizons-Upward Bound.” Constantly evaluating results, the program strives to be a model of educational excellence in addressing social and economic inequalities, ensuring access to modern technology and guiding its graduates to pave the way to a better society for us all.

HUB is affiliated with the Cranbrook Educational Community, which comprises the Academy of Art, Art Museum, Institute of Science, Schools and other affiliated educational and cultural programs.
Message from the Advisory Board Chair

The entire HUB advisory board wishes to extend its heartfelt thanks to all of the individuals and organizations that have supported the program. Your devotion and understanding of the communal value of Horizons-Upward Bound has continued to inspire and motivate new interest and hope for the educational promise of the future.

This past year, we initiated several new relationships, which we feel can meld into and enhance Horizons-Upward Bound at Cranbrook. We wish to thank those leaders in our community who have committed to the Leaders Who Care initiative. Established in collaboration with The Detroit College Promise, this event exposes HUB and other students from metropolitan Detroit to professionals who share their educational and career experiences. Many thanks to Dr. Nat Pernick, who birthed The Detroit College Promise, whose mission is to motivate Detroit students to make education a priority. With the combined energy of HUB, Leaders Who Care and The Detroit College Promise we believe we can inspire and leverage the leadership of the greater Detroit community.

The HUB advisory board is always looking for new opportunities to raise money. Bea Banks and the members of the Motor City Doll Club hosted a luncheon fundraiser on behalf of the program. Bob Ufer arranged HUB Day at Style Trader™ where the program received the value of donated items and 10 percent of the day’s sales. The 3rd Annual Golf Outing, held at the Links of Novi was expertly chaired by Otto Kern, C’70.

The program could have never enhanced the lives of our students, their children and grandchildren without the commitment of the dedicated staff. Debra DeBose has shepherded the development activities of the advisory board and the administrative staff has been led by Barbara Vettel. HUB director Dr. Darryl Taylor has infused new energy and leadership into the program.

We pledge to continue to devote our time and energy to supporting the students of HUB. We all look forward to an exciting future. Again, the entire board thanks you for your support and faith in our efforts.

Michael J. Hermanoff, C’57
Chair, Horizons-Upward Bound Advisory Board

Horizons-Upward Bound Revenues 2012/2013

- Annual Fund: 48%
- Department of Education Grant: 44%

Congratulations
The HUB program congratulates Council for Opportunity in Education (COE) founder and president Dr. Arnold L. Mitchem on his retirement and 32 years of unwavering commitment to educational excellence and tireless advocacy for underrepresented students. COE’s mission is to advance equal opportunity in postsecondary education and focuses on ensuring that the least advantaged U.S. citizens have a realistic chance to prepare for, enter, and graduate from postsecondary institutions. The council works in conjunction with colleges, universities and agencies that host TRIO programs, which specifically help low-income students enter college and graduate. Horizons-Upward Bound is a federally funded TRIO Program.

### HUB Students James Page, William Haynes, III, and David Duncan at the Hub Garden

**College Tour**

The annual HUB College Tour took place from August 5th to 9th, immediately following the summer phase. The rising juniors toured nine colleges and universities in Ohio and Michigan. Many of the students from the Class of 2012 attend the colleges and universities chosen to visit. The majority of students in the Class of 2013 will attend schools in the Mid-West region.

### Class of 2013

The majority of the HUB Class of 2013 received at least 50% financial assistance from their college or university of choice. Thirteen students received a full financial package. The Class of 2013 received a wide range of scholarships from national and state colleges and universities, as well as community colleges. Akua Achampong and Mariah Hill received scholarships from the Gates Millennium Scholars Program, which selects 1,000 talented students each year to receive a good-through-graduation scholarship to use at any college or university of their choice. Others received awards from the Dell Scholars Program, Bishop H. Irving Mayson Scholarship Foundation, Hispanic Scholarship Fund, and individual church scholarships.
Horizons-Upward Bound (HUB) is a self-supporting educational program that helps high school students with limited opportunity to attain the benefits of higher education. HUB is affiliated with Cranbrook Educational Community, which comprises the Academy of Art, Art Museum, Institute of Science, Schools and other educational and cultural programs. Every effort has been made to carefully review our donor lists and provide proper credit to those who support HUB. If you find an error, however, please contact us at 248 645.3137.

DIRECTOR OF CRANBROOK SCHOOLS Arlyce M. Seibert
DIRECTOR OF HUB Dr. Darryl L. Taylor, H/C’70

Gifts listed in this report reflect donations made from July 1, 2012 to June 30, 2013.

Visit our website at www.schools.cranbrook.edu/HUB or contact Debra DeBose in the HUB Advancement Office at 248 645.3137. PO Box 801, Bloomfield Hills, MI 48303-0801.
