DESIREE WOOLSEY  
Oakland University  

Horizons-Upward Bound (HUB) is a self-supporting educational program that helps high school students with limited opportunity to attain the benefits of higher education. HUB is affiliated with Cranbrook Educational Community, which comprises the Academy of Art, Art Museum, Institute of Science, Schools and other educational and cultural programs.

Every effort has been made to carefully review our donor lists and provide proper credit to those who support HUB. If you find an error, however, please contact us at 248 645-3137.

DIRECTOR OF CRANBROOK SCHOOLS Arlyce M. Seibert  
DIRECTOR OF HUB Dr. Darryl L. Taylor, H/C'70  

Gifts listed in this report reflect donations made from July 1, 2011 to June 30, 2012. Visit our website at www.schools.cranbrook.edu/HUB or contact Debra DeBose in the HUB Advancement Office at 248 645.3137. PO Box 801, Bloomfield Hills, MI 48303-0801.
The life-changing experiences our students receive at Horizons-Upward Bound involves much more than time spent on the beautiful campuses of Cranbrook and Kingswood. If you ask our alumni they will tell you that HUB made a difference in their lives because of the small classes, compassionate teachers, our high expectations, community support, a promise of self-discovery and the realization of the unlimited power that lies in all of us. Everyone has raw talent, abilities and passions. We received teaching that was universally respected and thought provoking; we learned not just technical skills and volumes of facts, but how to think creatively and to be innovative. The 2012 summer theme, “Our actions will define our character.” provided our students the opportunity to demonstrate through their actions who they really are and what they hope to accomplish in life. The summer component of Horizons-Upward Bound (HUB) was filled with new initiatives put in place to address the academic, social and physical needs of the participants.

HUB submitted a successful grant application to the U.S. Department of Education and will be funded for the next five years. We have committed to serve 145 Upward Bound students annually with an additional 35 students funded with private monies. We will explore the possibility of establishing a Math and Science component to serve 30 students from Pontiac, Detroit and Highland Park. We hope to have this initiative in place by the 2014 summer phase.

SINGLE GENDER CLASSES
The federal guidelines for Upward Bound programs changed for the grant cycle beginning June 1, 2012. The U.S. Department of Education requires applicants to demonstrate more efficiency using less federal resources and serve low achieving schools that are persistently failing. With that in mind, single gender classes were created for 9th and 10th graders who need basic skills building in math and English. The single gender classes established a more serious yet comfortable learning environment.

HUB continues to work to ensure opportunities for students to attain enrollment in post-secondary education and persist therein. Our participants constantly face challenges and obstacles in their home schools so we hope to have a full-time college counselor on board this fall. All program initiatives are in alignment with Cranbrook Schools’ and HUB’s Strategic Plan.

COMMUNITY VOLUNTEERS
HUB served 151 high school students employing a staff that included twelve Cranbrook teachers and administrators, all of whom contributed greatly to our students’ successful academic outcomes. Along with our talented teachers, eight Cranbrook students volunteered on a daily basis to tutor the HUB participants during a study hall period and assist with clerical tasks. Without question, both the Cranbrook and the HUB students benefitted from the experience and this volunteer program will continue during the academic year component.

HEALTH AND WELLNESS
It is important that the HUB students feel a connection with all Cranbrook has to offer, not the least being its beauty and uniqueness. Recognizing that goal, we invited the entire community to participate in our inaugural 5K Walk/Run. The established course took them all over the campus and allowed them to see parts of Cranbrook they had not seen before.

An Amazing Race scavenger hunt was held the first Sunday of summer phase that challenged 27 teams of four to find various landmarks and works of art scattered throughout the community. The rising senior class continued planting and caring for the HUB/Bridge Garden established last summer. Tomatoes, squash, beets, carrots and Swiss chard were harvested and donated to a Pontiac food bank.

HUB partnered with the Community House of Birmingham to offer the iCount™/KidsCount™ Wellness Program – an outreach program that help teens and young adults improve their lifestyles and lead more vibrant lives. The program is comprised of integrated movement, nutritional and self-awareness components, supported by a web platform with tools, curriculum and contests. Each HUB student used pedometers to track their daily steps and entered steps and movement, tracked calories in/calories out, body mass index and basal metabolic rate on their own webpage. They also participated in physical activities, learned about self-esteem, stress management and making smart food choices. HUB students logged a total of 11,202,976 steps during the summer phase.

SUCCESSFUL ALUMNI
Frederick Blackmon, H’69, was the keynote speaker at this year’s Honors and Alumni Induction Ceremony. Mr. Blackmon has earned a reputation as a skilled financial planner, consultant, developer, advisor and strategic analyst. He received a Bachelor of Arts degree in 1973 from the University of Michigan, majoring in Economics and English and a Master’s in Business Administration in 1976 from the University of Chicago, with a concentration in Finance and Accounting. He serves on many boards including Pacific Select Funds, Pacific Life Funds, Trustmark Insurance as well as the Cranbrook Educational Community Board of Trustees. Mr. Blackmon’s powerful and inspiring words challenged our students to overcome any hardship that may impede them from reaching their goals.
The entire HUB Advisory Board extends a sincere thank you to all the devoted organizations and individuals for your generous support and commitment to this vital educational program. As the board chairman along with our many dedicated board members, I want to assure you that the focus and attention of our commitment is the building and strengthening of these talented students into our future leaders.

As an advisory board, we support the efforts of Dr. Taylor and his staff in providing the best resources and opportunities that will create the highest results. We continue to seek out new and improved learning tools that offer our students the greatest impact. Your funds provide the link that among many things, support the necessary teaching assistance these students need to succeed. We encourage your commitment to stay involved and always welcome you to come visit our campus and see the product of YOUR support!

Hugh F. Mahler, C’67
Chair, Horizons-Upward Bound Advisory Board

HORIZONS-UPWARD BOUND REVENUES 2011/2012

- Endowment 4%
- Department of Education Grant 48%
- Annual Fund 48%

HORIZONS-UPWARD BOUND EXPENSES 2011/2012

- Student Transportation 8%
- Administrative Expenses 10%
- Room & Board 21%
- Faculty 33%
- Supplies & Services 28%
The mission of Horizons-Upward Bound is to prepare students with limited opportunity from the Detroit metropolitan area to enter and succeed in post-secondary education.

THE PRIMARY GOALS OF HORIZONS-UPWARD BOUND ARE TO:

• Provide a comprehensive summer and academic year program that prepares low-income, potential first-generation college students in academic skills that will allow them to succeed in secondary and post-secondary education.
• Ensure the long-term financial health and stability of the program and secure the funds necessary to support the priorities and goals of the program.

HISTORY
Horizons-Upward Bound is modeled after A Better Chance, a program founded on the premise that low-income students can successfully compete with students from higher-income households if provided with the same preparation and opportunities. With the guidance of faculty from Cranbrook School, the program began in 1965 funded by a grant from the Ford Foundation under the “Horizons” banner. The U.S. Department of Education started a nationwide “Upward Bound” program one year later as part of President Johnson’s Great Society initiatives. When it became apparent that the local “Horizons” and the nationwide “Upward Bound” programs had essentially the same goals, Cranbrook applied for and received a federal Upward Bound grant that resulted in “Horizons-Upward Bound.” Constantly evaluating results, the program strives to be a model of educational excellence in addressing social and economic inequalities, ensuring access to modern technology and guiding its graduates to pave the way to a better society for us all.

HUB is affiliated with the Cranbrook Educational Community, which comprises the Academy of Art, Art Museum, Institute of Science, Schools and other affiliated educational and cultural programs.
