Professional Private Lessons

Private lessons are available for adults and children of all levels and abilities. Start with an occasional lesson or set up a regular weekly routine for more rapid improvement or conditioning. Whether it’s your first time in the water, or if you’re an avid swimmer, private instruction can help you achieve your swimming goals.

Length of lessons is decided between the instructor and customer with most lessons running 30-60 minutes. Individual instructors set their own private lesson fees. Semi-private lessons are available upon request and can be scheduled with two or more students who sign up together.
